WORKING PROJECTS

Reducing Partisan Prejudice with Twitter Bots: A Case for Peer-to-Peer Nudge Interventions
- Online field experiment which employs Twitter bot to distribute vignette tweets to partisan harassers in attempt to find social sanctioning effect among harassers and reduce partisan prejudice; based in 'Social Identity Theory.'
- NYU IRB # TBD; Supervised by Professor Eric S. Dickson

The #Ideological Presentation of Self: Dramaturgical Analysis Using Twitter Ideal Point Estimates
- Project done in conjunction with APSA's Ralph Bunch Summer Institute
- Using dramaturgical analysis, social network theory, and Twitter data to argue that performative heuristics are used when selecting into an online follower network, which can be used to estimate 'perceived ideology.'
